OBE

OUTCOME BASED EDUCATION

Outcome based education (OBE) is a student-centric educational model that maps and measures students' performance at every step. The OBE model aims to maximize student learning outcomes by developing their knowledge and skills. The outcome-based education system, also referred to as standard based education, and has proven to be a success in helping institutions measure their learning outcomes and at the same time enabling students to develop new skills that prepare them to stand out with their global counterparts. This document gives an overview of the OBE then followed by the ways of achieving the outcome-based education. The process of defining the PEO based on vision and mission of university and then defining the course outcomes. The COs are mapped to POs and procedure used to attaining the CO with PO. And finally, the ways to improve the attainment. The accompanying image illustrates the calculation of PO attainment through various components.
